Software Engineer Intern

Job Number:14000VZ
Open Date: 12/29/2014
Location: Raleigh, NC

Apply   Print

Description

Pack your college gear because you can wear it here. At Garmin, we don't worry about what you're wearing; we're too busy pursuing the next best thing, and we want you to be a part of that innovation. You give us 10-12 weeks, from May to August, and we'll PAY you to play with toys, build cool electronics and meet new people — not only at work but at outings, such as laser tag, ice cream socials and more. Now, this is what you've been studying for.

Forget "special projects" for newbies, our software engineering interns work side-by-side with a mentor, making hands-on contributions to the world's top-selling GPS navigation and wireless communication products. Our interns learn to develop software in C, C++, Assembly or other selected languages. They also test software, perform software releases, quality assurance activities and performance maintenance activities…all on actual Garmin products. Come on, what are you waiting for? Put your brain to work at Garmin.

Qualifications

Qualified candidates must have completed coursework in Computer Science, Electrical Engineering, Computer Engineering, or another engineering field plus a minimum 3.0 cumulative GPA. Relevant experience and/or training in a high level language such as C, C++, C# or Java, data structures and object oriented design methodology plus demonstrated strong and effective verbal, written, and interpersonal communication skills is also required.

Candidates with a cumulative 3.5 GPA and previous experience working in a team environment are preferred. Interest and/or active participation in a Garmin market segment – aviation, marine, automotive, outdoor, or fitness is a major plus!

At Garmin, we like to laugh, have fun and work hard. It comes easily when you work on cool products with hard-working individuals who share the same passion. We offer numerous opportunities to get involved – kickball anyone? – and believe strongly in a work-life balance so your creativity can flow. Garmin offers interns company paid housing and other incredible benefits...an intern package that tops the competition. To learn how you can

be a part of our nationally recognized internship program....Apply today.
