CS 1400 Lab 17: How would you like it Shipped?

Objective

This lab will give you some practice using Radio Buttons and ComboBoxes.

The problem

In this weeks programming project, the user will be able to select one of a number of shipping methods for a parcel. Parcels may be shipped using Standard, Express, or Same-Day service. For this lab, create a small GUI program that uses either Radio Buttons or a ComboBox to offer the user this set of choices. When the user makes a selection, show which choice was made in a MessageBox.

File(s) to Submit:

Place the complete project folder for this assignment in a zip file and name the zip file lab_17_your-initials_v1.0.zip. For example, I would name my file lab_17_RKD_V1.0.zip. Submit this assignment as Lab #17 on Canvas.

Grading Guidelines

Description	Points possible
Assignment meets grading guidelines: o Source code files contain a declaration that you did not copy any code, except that provided. o Assignment has been properly submitted to Canvas o Code meets style guidelines	2
Program executes correctly and meets all requirements.	3
Total	5
