Course Syllabus

Grade Sheets

Every project and lab has an associated grade sheet. There are links to these grade sheets on the project and lab pages. Before you turn in a project or lab, please look at its grade sheet to make sure that your program meets all of the requirements for that project or lab.

Grading Penalties

When your project or lab is graded, points may be deducted when the assignment does not meet certain style and submission criteria. Point deductions for style and submission errors include the following:

Submission	
No File Prologue	assignment may not be graded[†]
No "did not copy" declaration	assignment may not be graded[†]
Missing files	assignment may not be graded[†]
Executable does not run or no executable	-50%
Files are not zipped together	-3 points
Zip folder is not properly named	-3 points
Zip folder contains unneccessary files	-3 points
Style	
Code contains magic numbers	-3 points
Incomplete or missing function prologues	-3 points
Invalid UML notation	-3 points
Improper use of braces and indentation	warning
Improper naming of variables and constants	warning

[†]When an assignment is not graded, it may be corrected and turned in late, but it will penalized for being late.
